PROF. GOLDMARK

ON WAGNER MUSIC

A Large Audience Listened With

Pleasure to His Lec-

ture.

HIS TOPIC WAS "LOHENGRIN."

Prefaced With an Historical Compar-

ison Between That Drama

And "Parsifal."

It is always a pleasure to listen to

Prof. Rubin Goldmark, as he is one

of the most scholarly lecturers and ac-

omplished executants on the musical

ecture platform either in this country

or in Europe. Years of conscientious

and well directed study have given

him a splendid mastery especially of Wagner's works, in performance as

well as in philosophical insight. Con-

sequently the subject matter in all of

its phases has become thoroughly ab-

sorbed, and the talented lecturer

speaks and plays without conscious effort, his efforts are free and spon-

taneous. Add to all this a never lag-ging enthusiasm, and it is easy to un-

derstand the success of this "apostle of the Wagner Music Drama."

An audience beyond the seating ca-pacity of the house greeted Prof. Gold-

nark last evening, in Unity hall, and

"LOHENGRIN" THE TOPIC.

ture being prefaced with an historical comparison between that drama and

ally as well as musically. "Parsifal" brings us face to face with the Holy

Grail, while in "Lohengrin" we ar-told of its existence, for "Lohengrin"

is the knight of the Grafi. In the "Parsifal" we are taken into the sanctuary of the Holy Grafi. In "Lohengrin" we see the knight of the Grafi sent out to do battle for the right. "Lohengrin" is the natural point of transition between the earlier and later styles of the great employee.

er styles of the great composer. Wagner was eminently a composer for the

stage, a dramatic composer. He did not follow as some do along the lines of the least resistance, but forced and hewed his way straight toward the highest and best aspects of his ideals

through all obstacles. In "Die Fleig-ende Hollender" and "Tannhauser,"

BRILLIANT MUSIC.

Prof. Goldmark then devoted the remainder of the evening to descrip-

remainder of the evening to descrip-tives of the more notable points of "Lohengrin," treating them first his-torically, and then illustrating their philosophy by practical piano demon-stration. Of course such a lecture,

from an historical standpoint is neces-sarily episodic, but the artist skilfully

onnected the ends of the narrative connected the ends of the harrative with not unnecessary brevity, so that the entire tale was made plain. The brilliant music at the close of the first act was given on the plane with real-

istic emphasis and yet with grace and ease, as the technical intricacies of the most complicated Wagnerian

the most complicated Wagnerian scores have no terrors for Prof. Gold-mark. This was noticeable where the

performer's left hand playing of bril-

liant arpeggio obligatos was hardly short of the wonderful. The pathetic music in the third act, in the knight's

loss of his bride, was beautifully ren-dered, and in fact the effort of the

entire evening was one which the 600 music lovers who attended will long
